

# ON STAGE ENGAGEMENT

*Bev Hancock*  
LEAD THROUGH CONVERSATION

Bev is more than a conference speaker, she uses her bespoke Fuel, Ignite, Accelerate method to co-create strategies that spark curiosity and dynamic dialogue with the audience. Wisdom obtained from the audience can then be sifted and collated into valuable post-conference data.

## CONVERSATIONAL MAGIC

Don't we all need just a little bit of magic? Conversational Magic show you how you can use every communication touchpoint in your business to transform your employee and customer experience through the science and magic of conversation. Conversational Intelligence is the transformative leadership skill to thrive in the future world of work. It builds trust, accountability, agility, innovation and collaboration - all the ingredients you need to build loyalty, retention and sustainable success in a purpose drive business. Turn your conversations into

## UBUNTU CONVERSATIONS

What if we meet each other in our full and glorious humanity, where we fully embrace our own African solution of UBUNTU? We seem to be spending a lot of time trying to fix what is broken rather than creating an environment where both each unique individual and the community or organization thrive, where they feel a deep sense of belonging and the system supports a fully human workplace that visibly builds trust and psychological safety. Using uniquely African stories, this keynote explores how harnessing the strength of both the individual and the group can help leaders transform the culture and well-being of their teams as they Lead Through Conversations.

## WORKING SMART FOR A BETTER FUTURE

In 2020 we reacted to the unknown. In 2021 we reset and reimagine our organizations and people to thrive in this digitally driven new world of work. In 2022 we emerge into a healthier and fully human workplace that finds the optimal balance between human by digital transformation.

It is how we manage our time, build connection and engagement and find more effective ways to work in the hybrid environment. As we enter this new hybrid world, employees are wanting new conversations about how they work and how that work is measured. Leaders need new ways to lead, to motivate and to create a hybrid culture that nurtures both performance and wellbeing.
